

# FARGO® C50 Card Printer

## DIRECT-TO-CARD PRINTER

- **Simple** - Begin printing cards in minutes.
- **Affordable** - Get the hardware, software, ribbons and support you need in a single, cost effective package.
- **Reliable** - Experience outstanding performance and unrivaled quality from the leading brand in card issuance.
- **Unsurpassed Customer Support and Care** - From ordering to installation, users receive outstanding and ongoing product support the minute they open the box.

Designed for businesses, schools and government agencies, the HID Global FARGO® C50 is an easy-to-use and affordable printer that can reliably print full-color employee ID, loyalty, payment or membership cards. With a sleek, smart design, the printer requires virtually no maintenance and can easily fit into the smallest offices settings.

The C50 can go from box to printing cards in minutes, providing you with a new level of printing convenience. Features of the C50 include:

- All-in-one printer ribbon and card cleaning cartridge simplifies the ribbon loading process.
- Built-in Swift ID® badge application allows you to create ID badges in seconds without having to install any additional software.

- FARGO Workbench™ printer maintenance and diagnostic software ensures optimal performance at all times.
- Enjoy edge-to-edge printing in full-color or monochrome.
- Intuitive design provides instant, system status updates through color-changing buttons.
- Expert online and phone support.

The FARGO C50 is built with Genuine HID™ technology and is fully interoperable with other products in the HID ecosystem, enabling organizations to leverage their existing technology investments. The C50 printer is compatible with both Asure ID® card personalization software and EasyLobby® Secure Visitor Management software.

\* Indicates the ribbon type and the number of ribbon panels printed where Y= yellow, M= magenta, C= cyan, K= resin black, O= overlay, B= dye sublimation black.

\*\* Print speed indicates an approximate print speed and is measured from the time a card drops into the output hopper to the time the next card drops into the output hopper. Print speeds do not include encoding time or the time needed for the PC to process the image. Process time is dependent on the size of the file, the CPU, amount of RAM and the amount of available resources at the time of the print.

\*\*\*Linux versions: Ubuntu 12.04, Debian 7.0, Fedora 18, Mandriva 2011, Red Hat 6.4, Open Suse 12.3.

\*\*\*\* Limited availability - contact your FARGO dealer for availability.
